

SINGAPORE'S DEVELOPING MARKETS

AUSTRALIAN MOTOR YACHT

'Shipworks One' a 44 metre luxury motor yacht recently delivered by the Shipworks Group from their facility in Brisbane and pictured above on trials, was fitted with propellers and shafts manufactured by Stone Marine Singapore.

The five bladed, 1200mm diameter propellers were designed by Bruntons and manufactured to the high standards of accuracy necessary to ensure the smooth running, vibration free, propellers demanded by luxury motor yacht customers.

INDONESIAN POLICE BOATS

Four Twin Screw 34 metre patrol Boats, shown below on trials, have been delivered to the Indonesian Police by SML Shipyard in Singapore.

Each vessel is powered by two 2040 kW MTU engines, driving 1240mm diameter, five bladed nikalium propellers manufactured by Stone Marine Singapore to Bruntons high speed, low noise design. The sterngear package was also supplied by the Company. All four boats comfortably exceeded the 25 knots contractual requirement, giving a smooth, vibration free ride.
